FAMILY SUPPORT

Welcome to SwitchPlay—where fun and learning come together in a playful, engaging way! At Beanies Family Support, our SwitchPlay Sessions are designed to be like sneaking veggies into dinner: your child enjoys a fun-filled hour of play, while we sneak in essential skills like practicing transitions and improving self-regulation. It's an organic way of merging fun and family support!

Fun & Engaging: Your child can explore a variety of activities, with or without you by their side.

Parent Participation Encouraged: Play games, read stories, create crafts, or build something together—strengthening your bond and helping establish healthy transitions at home.

Hidden Veggies: Our Beanies Team skillfully incorporates transitions into play, helping your child develop important skills in a fun, natural way.

Relaxed Environment: Parents can also opt to unwind with a coffee while their little ones play.

Weekly Adventures: Return every week for new fun and games!

YOU ARE INVITED

2-12 YEARS

At Beanies SwitchPlay, we welcome children from ages 2 to 12 years old, offering a flexible schedule with sessions during and outside of school hours. This ensures that both little ones and older adventurers have plenty of opportunities to attend.

We believe strongly in the benefits of mixed-age play, where children of different ages can learn and grow together. This approach fosters social development, encourages collaboration, and builds confidence across all age groups. While our sessions don't have set age restrictions, we understand that parents may want to know more about the group dynamics. If you'd like to check the age range of children attending a particular session, feel free to give us a call before booking—we're happy to provide the details!
